

ABOUT SCHOOL

K.N.G. Unnithan Central School is a prestigious educational institution, nestled on the serene banks of the Ashtamudi Lake in Kadavoor. Established in 2017, the school is a tribute to the fond memory of the esteemed Mathematics professor, K. N. Gopalakrishnan Unnithan, affectionately known as 'Unnithan Sir'. Following the CBSE syllabus, the school currently offers classes from Pre-KG to 7th standard, with an aim to progressively add one grade each year. By the year 2030, the school will offer classes up to 12th standard.

Spread over a sprawling 5-acre campus, the school offers an enriching environment conducive to both scholastic and non-scholastic activities, fostering holistic development in every student.

Our mission is to continuously enhance our facilities and ensure the best teaching-learning processes in alignment with the growing academic needs. We are committed to providing every student with access to superior opportunities as they progress through their educational journey.

LEGACY

**From an abounding fire were our torches lit,
And in us lies unrest, till no soul is left unkindled.**

An excellent teacher, visionary, guide and inspiration, Unnithan Sir was one of those few teachers who could make an impact on how one looked at a subject that is dreaded by many and simultaneously educate about life itself. Teaching in his hands grew from mere instruction to a divine art which bore thousands who scaled the highest levels of academic and professional excellence. But above that he taught his students, lessons of living that few others have dared to venture into and for that we are eternally grateful.

Beloved teachers we have had many, but kind souls that leave everlasting footprints on dynamic lands, footprints that are so marked, we are left with no choice but to strive for the same, are indeed few.

OUR VISION & MISSION

OUR VISION

We aim to nurture the formation of educated men and women, alive to the needs of the world, whose action arises from thought and compassion, who resolve differences constructively, who embody success in professional and personal lives and are tolerant and appreciative of the differences in culture, backgrounds and ethnicities. We believe in creating an environment that promotes experiential learning and reflection and thereby equip the students with values of respect, ethics and responsibility that aid them in the real world.

OUR MISSION

Creating an individual, in whom happens, an unmasking of consciousness, widening of tolerance and pursuit of knowledge, in every waking breath.
